**INDEPENDENT AUDITOR'S REPORT**

The Plan Administrator  
Thomas Industries Inc.  
Retirement Savings and Investment Plan  
Louisville, Kentucky

We have audited the accompanying statements of net assets available for benefits of the Thomas Industries Inc. Retirement Savings and Investment Plan (the Plan) as of December 31, 2004 and 2003, and the related statement of changes in net assets available for benefits for the year ended December 31, 2004. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2004 and 2003, and the changes in net assets available for benefits for the year ended December 2004, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplementary schedule of assets (held at end of year) as of December 31, 2004, is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplementary schedule is the responsibility of the Plan's management. The supplementary schedule has been subjected to auditing procedures applied in our audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**NOTES TO FINANCIAL STATEMENTS**

December 31, 2004 and 2003

**NOTE A--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the Thomas Industries Inc. Retirement Savings and Investment Plan (the Plan) are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition: Investments held by the Plan are stated at fair value. Securities are valued at the last reported sales price on the last business day of the plan year. The mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Units of the common/collective trust fund are valued at net asset value at year-end.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

Benefit Payments: Benefits are recorded when paid.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties: The Plan provides for various investment options. Investment securities are exposed to various risks, such as changes in interest rates, market changes and the risk of default. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the values of investment securities, it is at least reasonably possible that changes in risk factors in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

**NOTE B--DESCRIPTION OF PLAN**

The following description of the Plan provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General: The Plan is a contributory plan which covers certain United States salaried and clerical employees of Thomas Industries Inc. (the Company or Thomas) whose compensation is not determined by collective bargaining. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: The Plan is funded through employee and employer contributions.

Participants may elect to contribute from a portion of their compensation up to a maximum as prescribed by the Internal Revenue Code, for any calendar year. The rate of withholding can be changed upon fifteen days notice to the Company. Contributions made by participants are intended to qualify as cash or deferred arrangements under Section 401(k) of the Internal Revenue Code.

**NOTE B--DESCRIPTION OF PLAN--CONTINUED**

The Company makes matching contributions equal to 50% of each participant's contributions (applicable to employee contributions up to 6% of the participant's compensation after the completion of one year of service by the employee). The Company also may contribute to the Plan an amount to be determined annually at the discretion of the Company.

Participant Accounts: Each participant's account is credited with the participant's contributions and an allocation of Company contributions, forfeited Company contributions of nonvested terminated participants, and Plan earnings. Allocations of the Company's contributions are based on the participant's contributions or employee compensation, while allocations of earnings are based on account balances. Forfeited Company contributions of terminated nonvested participants are used to reduce future Company contributions. Forfeitures used to reduce Company Contributions for 2004 were \$13,014. Forfeitures remaining as of December 31, 2004 to be used to reduce future Company contributions totaled \$25,370. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting: All participants are fully vested in employee contributions and related earnings. Company matching contributions, plus actual earnings thereon, become fully vested after six years of service (20% after two years, 40% after three years, and an additional 20% for each additional year). Other Company contributions, plus actual earnings thereon, become fully vested after seven years of service (10% after two years, 20% after three years, and an additional 20% for each additional year).

Investment Options: The Plan's investments are held by Vanguard Fiduciary Trust Company (the Trustee). Upon enrollment in the Plan, a participant may direct contributions in 5% increments into eight Vanguard mutual funds, one Vanguard common/collective trust fund, and the Thomas Industries Common Stock Fund, which holds shares of the Company's common stock. Participants may change their investment options at any time without charge.

Withdrawals: Hardship withdrawals are permitted upon meeting certain requirements. Participant accounts will be paid out in a lump sum upon death, total and permanent disability, or termination of employment. Retirees may elect to receive distribution in a lump sum at retirement or after retirement but not later than age 70 ½.

Administrative Expenses: Administrative expenses are paid by the employer.

Plan Termination: Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of the termination of the Plan, the net assets of the Plan will be distributed to participants in the amount of the participants' account balances valued as of the termination date.

**NOTES TO FINANCIAL STATEMENTS--CONTINUED**

December 31, 2004 and 2003

**NOTE E--INCOME TAX STATUS**

The Internal Revenue Service ruled on June 23, 2003, that the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code (the IRC) and, therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.
